## OCP OVERCURRENT PROTECTION DEVICES FOR E-MON ELECTRIC SUBMETERS

UL 508 / CSA Type 1, 2, 3, 4, 4X, 12 and 13 Polycarbonate Clear Cover Housing.

----- UP TO 6-POLES MAX.

OCP Series: 6(K)x6(L)x3 Enclosure with Clear Cover permits thru-the-door inspection of circuit ON/OFF status

OCP PART NUMBER ORDERING MATRIX:			
	OCP Series - Poles	- <del>XX</del> # of Meters <sup>1</sup>	Total Counts
SINGLE $\Phi$	<b>OCP - 1P</b>	-	
THREE $\Phi$	<b>OCP - 2P</b>	-	
MULTI-VOLT	<b>OCP - 3P</b>	-	
MULTI METER	<b>OCP - 4P</b>	-	
	<b>OCP - 5P</b>	-	
	<b>OCP - 6P</b>	-	
	<b>OCP <del>-XP-</del> WOENCL*</b>	-	
<i>1/10 Amp x meter count for MMU Cabinet see below</i>			
* Suffix WOENCL = OCP without enclosure: Fuse Block, Fuses & Din Rail Only			

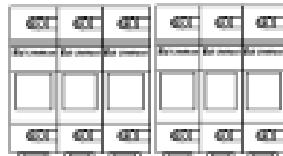

*Indicating Fuse Model Type / Current Rating / Number of Meters Protected*

KLDR1/10	1/10A 600V T/D	For 1 meter		
KLDR1/4	1/4A 600V T/D	For 2 meters (same voltage source)		
KLDR8/10	8/10A 600V T/D	For 8 meters (same voltage source)		
KLDR16	1-6/10A 600V T/D	For 16 meters (same voltage source)		
KLDR21/2	2.5 A 600V T/D	For 24 meters (same voltage source)		

Mounting Dimension K & L:	6.88" / 6.75"	Overall Dimensions LxWxH:	5.93"	6.16"	3.98"
---------------------------	---------------	---------------------------	-------	-------	-------

**FOR TECHNICAL SUPPORT PLEASE Contact Jay at 508.326.2708 or Steve at 203.269.6224**

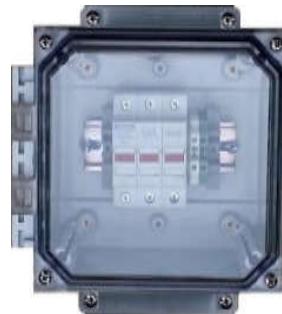

## HOW TO ORDER:

Step 1: Specify Total # of poles needed, i.e., OCP-1P; -2P; -3P, etc.

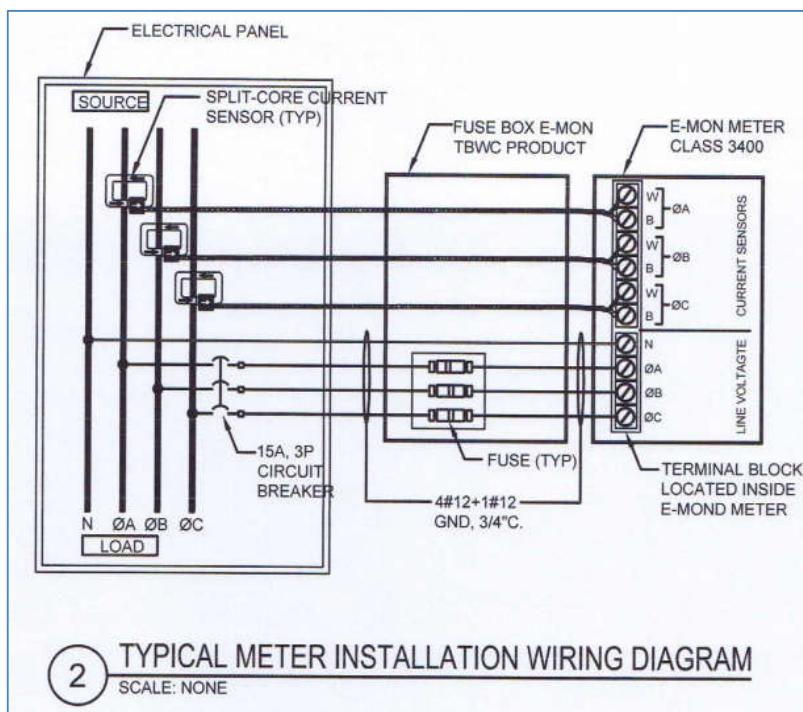

Step 2: Specify # of meters to be protected per pole in part # suffix i.e., -1, -2, -3, -8, etc.

## OCP PART NUMBER ORDERING EXAMPLES

- OCP - 1P** One Single-phase 120V meter
- OCP - 2P** One Two-phase 240V meter
- OCP - 3P** One Three-phase 480 / 277 / 208 / 240V meter
- OCP - 2P - 2** Two single-phase 240V meters
- OCP - 4P - 2** Two Two-phase 480 / 277 / 208 / 240V meters
- OCP - 6P - 2** Two Three-phase 120V meters
- OCP - 3P - 3** Three Two-phase 240V meters
- OCP - 6P - 3** One Three-phase 480 / 277 and One Three-phase 208 / 240V meter
- OCP - 6P - 2** One Three-phase 480 / 277 / 208 / 240V and One Two-phase 240V meter
- OCP - 5P - 2** Protection for (8) meters: All meters are three phase and fed from same source
- OCP - 3P - 8** Protection for (16) 3-phase meters: (8) are 480 and (8) are 208V
- OCP - 6P - 8** Protection for (24) 3-phase meters: All 208V from the same source
- OCP - 6P - 24 - WOENCL**

**Example<sup>2</sup> of how to properly install NEC required submeter overcurrent protection for all E-Mon Class 1000, 2000, 3200, 5000 or CLASS 3400 Series Meter (shown below) using a OCP Submeter Overcurrent Protection Device Part # OCP-3P fuse box:**
